Standard Cleaning and Sanitation Services, Products and Equipment

# Standard Cleaning and Sanitation Services, Products and Equipment

Clean, healthy and efficient facilities increase a guest's intent to return and provide the right working environment for staff. This document provides a comprehensive guide of the standard cleaning and sanitation services, products and equipment to be used by all BPAA locations to ensure each property meets these goals by leveraging its partnership with Ecolab.

## DISTRIBUTION - IMPORTANT, PLEASE NOTE

The preferred method of delivery for all Ecolab chemical product orders is via your preferred distributor partner. For assistance please reach out to **John Sherman at [Johnathan.Sherman@ecolab.com](mailto:Johnathan.Sherman@ecolab.com)**.

# OSHA Required Equipment

## CarePod Premium First Aid Program with Biohazard Spill Response Cabinet

OSHA and Food Code require each property be equipped with proper First Aid and Biohazard Response kits. Ecolab's program meets ANSI and ISEA minimum required items for workplace kits and supplies.

### Easy / Convenient Replenishment

- Use your mobile device - just scan the QR code
- On-line at [foodsafety.ecolab.com](http://foodsafety.ecolab.com)
- Call our Customer Service at 1.800.321.3687
- Your Ecolab Territory Manager

### Customized Cabinet / Products for your Application

- User-friendly design
- Dedicated storage spaces for each product
- Organized by product type and color coded
- Visual use indicators with reorder numbers for simple, easy identification
- Biohazard Response kit has materials needed for quick and proper incident cleanups

*Recommend one per department (F&B, Laundry/Housekeeping, Engineering)*

### GHS Communication Station (formerly MSDS)

All BPAA properties will have the appropriate required GHS (Global Harmonization Standard) and OSHA (Occupational Safety and Health Association) support documentation and training.

The Ecolab GHS Communication Station provides an easily recognizable location for storing safety data sheets (SDS), training aids, SDS documentation and OSHA-required employee training log sheets. It includes written and DVD training guides.

*Recommend one per department (F&B, Housekeeping, Engineering)*

# Water Filtration - Ice Machines

Ice machines need properly filtered water to produce quality ice and to protect internal machine parts from effect of minerals in natural water.

Ecolab's high-capacity water filtration systems are perfect for any ice machines, steamers, soda machines, post mix, coffee, and drinking water filtration needs. Filters are automatically replaced only once a year or more frequently depending on your water quality, to ensure high-quality water/ice, and to keep your equipment operating efficiently.

PRODUCT	COMMENTS	
	<b>High-Capacity Water Filtration System</b>	
	<b>Single Head Filtration</b> 9320-2266	<b>Issue:</b> Poor water quality creates cloudy and off-tasting ice, and increases maintenance costs from scale build-up.
	<b>Filters for Ice Machines:</b> 9320-2256	Reach out to your Ecolab Representative for proper sizing.
	<b>ECO350 Manifold</b> 9320-2270	Reach out to your Ecolab Representative for proper sizing.
<b>ECO350S Cartridge</b> 9320-2351	Reach out to your Ecolab Representative for proper sizing.	

## Proper Ice-Handling Equipment

- Recommend ice scoop and needs to be hanging outside ice bin when not in use so it can air dry.
- Recommend ice-only buckets to carry bulk ice from one location to another.
- Recommend ice containers only be used for carrying ice and for no other purpose. They must be washed, rinsed and sanitized between uses.

SKU	PRODUCT
<b>Ice Handling Equipment</b>	
30510-01-11	<b>Ice-Only Bucket</b> Comfortable carrying handle. Stores bucket upside-down and off the ground.
30512-02-00	<b>Ice-Only Bucket Hanger</b> Use for proper storing of Ice. Wall-mountable.
30530-00-31 (Clear) 30531-00-31 (White)	<b>Ecolab Ice Handler</b> Ergonomic carrying handle. Fill, transport and pour ice.
30514-01-00	<b>Shovel Blue</b> Chemical resistant. Corrosion-resistant.
30519-11-00	<b>Ice Scoop Guardian System</b> One scoop. Guardian holder. Mounting kit. Removable drain cup. Two different sizes of brackets (for mounting). Two suction cups.
30519-12-00	<b>Saf-T-Scoop</b> Angled chute. Ergonomic handle. Features "Germ Guard."

Contact your local Ecolab Representative for sizing over 800 lbs.

## Reduce Mildew and Scale Build up

Ice machines need regular cleaning and de-liming and proper ice-handling equipment.

Ecolab Ice Wand - 30518-01-00

- Inhibits growth of a wide variety of mold and slime commonly found in ice cube machines
- Clean and sanitize ice machine before installation
- Place the Ice Wand directly into the sump/ water-bath
- Change approximately every three months

## Pest Elimination

With Ecolab Pest Elimination, you have a trusted partner to take the worry from your shoulders, so you can focus on taking care of your guests. Our proactive approach helps you prevent pests before they become an issue. Our pest expertise combined with science-based protocols help us design a consistent service to meet your facilities unique needs and our digital documentation helps you meet inspection requirements and provides you with a holistic view of your properties' pest pressure patterns and pest management needs so you can keep your property free from pests - delivering a positive dining and visit to every guest.

When you let Ecolab manage your pest program, you'll have a partner who understands the risk that pests pose to quality of service and food safety. Our higher standards and guaranteed results give you confidence you're doing everything possible to maintain a clean, safe, healthy, and pest-free hotel.

# Training and On-Property Support

1. Ecolab Territory Managers and Service Specialists that work with each property today.

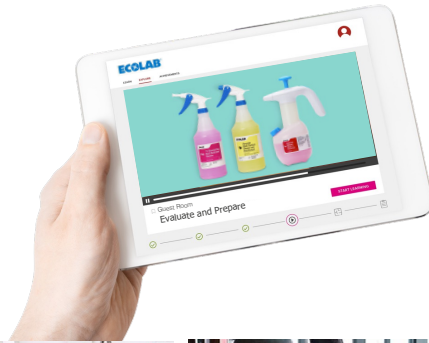

Conduct in-service training for staff on proper procedures, applications, etc.

2. On-line Procedural videos:

- warewashing procedures
- housekeeping procedures for public spaces
- odor control
- carpet spotting and cleaning procedures
- floor care cleaning, scrubbing, recoating and applying finish
- stone care cleaning, polishing and impregnating
- food safety
- etc.

3. Task-based training to achieve a consistent standard of clean.

- short, engaging videos in English and LATAM Spanish
- developed by Ecolab subject matter experts
- focused on the topics that matter most
